

UBOT BROADCASTING REINVENTED

DISCOVER INFORMATION ONLINE.
GIVE IT A VOICE.

BOTCAST*

Automatically create streaming audio botcasts from **any** onscreen text, using Text-To-Speech (TTS) technology.

Add to the mix music, news and even advertising from **any** RSS feed, blog or website.

BOTCAST*

UBOT WHAT

UBOT – a multilingual, user-curated, broadcast-based **social network with automated rich audio content production.**

UBOT – anybody can broadcast and/or listen to existing **user-curated BotStations** via the Internet and traditional broadcast radio.

UBOT – new **revenue stream** for copyright owners and publishers of different scale.

UBOT WHY NEW MEDIA FORMAT 24/7/365

UBOT creates a whole new media format with the ability to embed fully automatic audio advertising.

UBOT greatly reduces expenses associated with rapid production of rich, high fidelity, multi-language audio content.

UBOT enriches conventional broadcasting and podcasting.

UBOT produces highly customizable unrestricted content on any topic.

UBOT works instantly and virtually for free.
All day, every day.
